

## Student/Parent Canvas Acknowledgment Document

Dear incoming student and parents,

This is an introduction letter to your currently enrolled Economics course. I am writing this list of requests in order to better serve your student's needs in having a successful semester throughout this course. We operate extensively in our online service, Canvas, which has been provided by Lampasas ISD in order to provide easier access to completing assignments and monitor coursework.

With this program your student will be able to:

Access their assignments at any point of the day through a free app on their phone.

Be contacted by their instructor/system regarding any assignments that may be missing.

Be notified of any changes to assignments (due date change, extra credit, assignments going live).

Have access to communicating directly with their instructor through a school certified application via their phone/chromebook.
